

Notes: `Heart beat awoken` effect

Start beating LEDs in red, every beat brighter than the previous. When user is still in proximity after 20 secs then fully awake, else go to sleep again.

Notes: Modes menu

Menu will indicate mode by lighting up 1 of the 4 corners of the mirror:

- └ mode 1: show effect from preset list, auto-advance
- └ mode 2: show effect from preset list, no auto-advance
- └ mode 3: show IR distance demo (hue = IR distance)
- └ mode 4: ...
